

## **SuperPro Roll Control Adjustable Sway Bar Links**

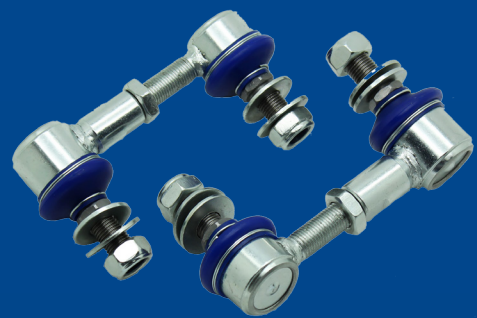

SuperPro now has a comprehensive range of Heavy Duty Adjustable Sway Bar Links available.

Designed to maximise the benefit of Roll Control Adjustable Sway Bars and be used in place of that hard to find O.E link.

With 19 Part numbers making up the range, adjustment from 75mm to 365mm, and either a 10mm or 12mm Ball stud, there is a Sway Bar Link Kit available for most applications.

### **Features & Benefits**

- 6060-T5 Alloy Link
- Large Ball for low friction and long life
- Spanner provision for on-car adjustment
- Eliminates sway bar link flex
- Allows for neutral sway bar positioning
- Maximises all positions on adjustable Sway Bars
- Suits lowered or raised vehicles

### **AVAILABLE NOW**
