

Toyota Hilux 2005-on Complete Lower Control Arm Kit

SuperPro has released the Complete Lower Control Arm Kit for the Hilux to overcome the problems associated with the O.E arms and lower inner camber bolts.

The New SuperPro Roll Control Arm Kits are the ideal solution and come complete with:

- Two Complete Arm Assemblies
- All SuperPro Bushings pre-installed
- Re-designed and Up-rated Ball Joints
- Up-rated Camber Bolts for four positions.

These Arms were designed from the outset to be technically superior to any other product on the market.

They are available in two versions, Standard configuration and a Camber increase version which are ideally suited to a lifted vehicle.

Available Now:

TRC471 – Lower Arm Kit – Standard

TRC472 – Lower Arm Kit – Camber Increase
