

TOYOTA HILUX 4WD - 2005-2015 Camber Bolt Kit

At last there is a high quality, cost effective solution for the ongoing issue of seized camber bolts in a Toyota Hilux 4WD.

The originals seize for many reasons and when this happens it makes replacing bushes, ball joints and performing a wheel alignment a nightmare!

SuperPro has released a complete set of camber bolts to solve this very issue, kit contains one vehicle set.

Features & Benefits

- High Quality Steel
- Fully machined
- Reduced shank for corrosion resistance
- Exceeds O.E specifications

A must have product for the shelf for any workshop/wheel aligner that works with these vehicles.
